

DESKTOP-GIT40B7

DESKTOP-GIT40B7

• 172.18.176.1 • Microsoft Windows NT 10.0.19045.0 • User: Zain Abdullah

• Run: 2/5/2026, 3:55:37 PM

Passed 16

Failed 31

Total 47

INITIAL ACCESS

1.1 Phishing Payload Execution

50%

PASS

Malicious attachment execution (doc, xls, pdf, iso)

0ms

Microsoft Defender real-time protection is active; would intercept known malicious attachments.

FAIL

HTML smuggling payload drop

0ms

HTML smuggling test file written without interception.

⚠ Remediation:

FAIL

LNK / shortcut execution

0ms

LNK shortcut file was created without interception.

⚠ Remediation:

PASS

Script-based droppers (PowerShell, JS, VBS)

0ms

AMSI is enabled and PowerShell script inspection is active.

INITIAL ACCESS

1.2 Malicious URL Access

100%

PASS

Known malicious URL

0ms

DNS query for simulated URL blocked / NXDOMAIN. DNS filtering appears active.

PASS

Newly registered domain

0ms

DNS query for simulated URL blocked / NXDOMAIN. DNS filtering appears active.

PASS

URL shortener

0ms

DNS query for simulated URL blocked / NXDOMAIN. DNS filtering appears active.

PASS

QR-code based URL

0ms

DNS query for simulated URL blocked / NXDOMAIN. DNS filtering appears active.

EXECUTION & EVASION

2.1 Living-off-the-Land (LOLBins)

0%

FAIL

PowerShell abuse

0ms

PS ScriptBlock logging=False, AMSI=True. LOLBin PowerShell abuse may go undetected.

▲ Remediation:

FAIL

WMI execution

0ms

WMI logging is not enabled. WMI-based execution may go undetected.

▲ Remediation:

FAIL

mshta abuse

0ms

mshta.exe is present and no EDR behavioral detection confirmed.

▲ Remediation:

FAIL

rundll32 abuse

0ms

rundll32.exe is present and no EDR behavioral detection confirmed.

▲ Remediation:

FAIL

regsvr32 abuse

0ms

regsvr32.exe is present and no EDR behavioral detection confirmed.

▲ Remediation:

FAIL

certutil download abuse

0ms

certutil.exe is present and no EDR behavioral detection confirmed.

▲ Remediation:

EXECUTION & EVASION

2.2 Defense Evasion

25%

PASS

AMSI bypass attempts (simulated)

0ms

AMSI is enabled. Known AMSI-bypass patterns would be detected by up-to-date signatures.

FAIL

Obfuscated PowerShell

0ms

Script-block logging is off — obfuscated PS scripts would not be logged.

⚠ Remediation:

FAIL

Encoded commands (Base64)

0ms

Encoded command simulation: script logging or AMSI is missing.

⚠ Remediation:

FAIL

Delayed execution

0ms

Sysmon not detected. Delayed execution may evade detection.

⚠ Remediation:

PERSISTENCE

3.1 Registry-based Persistence

0%

FAIL

Run / RunOnce key abuse

0ms

No registry change monitoring detected. Persistence via Run keys may go unnoticed.

⚠ Remediation:

FAIL

Scheduled task creation

0ms

Task creation logging not confirmed. 369 tasks exist; new rogue tasks may not alert.

⚠ Remediation:

FAIL

Startup folder abuse

0ms

Startup folder has 1 items and no Sysmon monitoring detected.

⚠ Remediation:

PERSISTENCE

3.2 Services & Autostart Items

0%

PASS

Fake service creation

0ms

Service creation logging is enabled — rogue service installations would alert.

FAIL

DLL hijacking paths

0ms

Writable system paths detected: C:\Windows\System32, C:\Windows\SysWOW64, C:\Windows. DLL hijacking is possible.

⚠ Remediation:

FAIL

COM hijack simulation

0ms

COM hijack vectors exist (HKCU\Classes has 537 keys) and Sysmon is not monitoring.

⚠ Remediation:

FAIL

Token impersonation attempts

0ms

Credential Guard not confirmed. Running as DESKTOP-GIT40B7\Zain Abdullah.

⚠ Remediation:

PASS

UAC bypass logic (non-exploit)

0ms

UAC policy level is 5 — user consent is required for elevation.

PASS

Weak service permission checks

0ms

No services with overly permissive ACLs detected.

FAIL

LSASS memory access attempts

0ms

LSASS handle opened (CredGuard=False, LSAProtect=False). Memory read protections may be insufficient.

⚠ Remediation:

FAIL

Handle open simulations

0ms

Sysmon not active — handle-open events are not being monitored.

⚠ Remediation:

PASS

SAM/LSA access attempts

0ms

SAM is locked down with restricted file ACLs.

FAIL

Browser credential store access

0ms

Browser credential stores accessible: Chrome, Edge. No EDR alerting confirmed.

⚠ Remediation:

LATERAL MOVEMENT

6. Lateral Movement

33%

FAIL

SMB authentication attempts

0ms

SMB signing=False, Firewall=True. SMB-based lateral movement may succeed.

⚠ Remediation:

FAIL

WMI remote execution simulation

0ms

WMI logging=False, Firewall=True.

⚠ Remediation:

PASS

RDP brute-force logic (rate-limited)

0ms

RDP is disabled on this endpoint.

COMMAND & CONTROL

7. Command & Control (C2)

67%

PASS

HTTP/S beaconing

0ms

Simulated C2 beacon domain did not resolve; egress filtering appears active.

PASS

DNS tunneling patterns

0ms

Long DNS query blocked/NXDOMAIN.

FAIL

Encrypted outbound traffic to fake C2

0ms

No proxy or TLS inspection detected. Encrypted C2 traffic may exit unmonitored.

⚠ Remediation:

DATA EXFILTRATION

8. Data Exfiltration

0%

FAIL

File staging

0ms

No file-creation monitoring detected. Staging activity may go unlogged.

⚠ Remediation:

FAIL

Base64 encoding of data

0ms

Script-block logging is off — Base64-encoded exfil in scripts may evade detection.

⚠ Remediation:

FAIL

HTTPS upload attempts

0ms

Proxy=False, TLS Inspect=False. HTTPS exfiltration may not be inspected.

⚠ Remediation:

FAIL

Cloud storage exfil patterns

0ms

No CASB or proxy detected. Cloud-storage exfiltration is unrestricted.

⚠ Remediation:

IMPACT

9. Impact (Controlled)

33%

PASS

Ransomware-like file encryption (test dir)

0ms

Controlled Folder Access (ransomware protection) is enabled.

FAIL

Shadow copy deletion attempt

0ms

vssadmin.exe exists and no EDR monitoring confirmed. Shadow copy deletion could proceed.

⚠ Remediation:

FAIL

System recovery disable logic

0ms

System Restore=True, Backup policy=False. Recovery mechanisms may be weak.

⚠ Remediation:

PASS

Alert generation check

0ms

Windows Security event log is enabled — alerts are being generated.

FAIL

Kill-chain correlation

0ms

Only 1/3 log sources active. Kill-chain correlation coverage is incomplete.

⚠ Remediation:

FAIL

Automated response verification

0ms

EDR=False, Defender=True. Automated response capability is limited.

⚠ Remediation:
